## Spring Semester at a Glance

### *Let's Rewind*

Another online semester is in the books! With the challenges faced with the pandemic this past year, SCCP was able to adapt and provide members with a meaningful and enriching experience that was entirely virtual. Let's take a look at some of the amazing speakers who shared their knowledge and experiences with our members this semester:

**February Meeting:** Faculty Research Roundtable – see 2<sup>nd</sup> page

**March Meeting:**

- Dr. Luiza Brenny from UW Acute and Primary Care
- Dr. Gabrielle Schneiderman from UW Pediatrics.

**April Meetings:**

- Dr. Hanna Kleiboeker & Dr. Philip Nguyen - UW PGY1 Residents
- Dr. Sydney Steiner - a UW PGY2 Oncology Resident.
- Katie Zimny, Dana Mille, Jennifer Morrison – Specialty Pharmacy – Oral Oncology

Thank you to our third-year members who will be moving on to their APPE rotations next year. Your dedication and contributions to SCCP have been appreciated throughout your time here. Best of luck!

## Meet the 2021-2022 Executive Board

### *Congratulations!*

President: Ziting Zhang

President-Elect: Caroline Paley

Secretary: Sean Van Helden

Treasurer: Garrett Gunderson

Student Liaison: Emilie Feng

Historian: Amy Wolff

Outreach Coordinator: Nick Ruark

PRN Co-Chairs: John Macdonald and Julia

WeberID/AMS PIN Co-Chairs:  
Kyra Verheyen and Ugboaku  
Maryann Egbujor

# Clinical Research Challenge

## Results

The ACCP Clinical Research Challenge local competition is a journal club consisting of a 90-minute multiple choice exam that analyzes an assigned clinical trial. This year, the Clinical Research Challenge was held virtually with two teams competing.

Congratulations to Nick Ruarke, Sean Van Helden, and Victoria Cancelleri for winning this competition and advancing to the national ACCP Clinical Research Challenge!

Thank you to Kenton and Thomas for organizing this event for our members.

## Research Roundtable

In February, SCCP held a research roundtable with School of Pharmacy faculty from the Social and Administrative Sciences, Pharmaceutical Sciences, and Pharmacy Practice Divisions. Our members were able to learn about the research that was going on in our school and were able to engage and ask questions about what it is like to have a career in research and academia. Thank you to the following professors to dedicating their time to sharing their experiences with our members:

- o [Dr. Abraham](#)
- o [Dr. Bashirullah](#)
- o [Dr. Bugni](#)
- o [Dr. Hayney](#)
- o [Dr. Shiyabola](#)
- o [Dr. Wenthur](#)
