Old Business

- Career Day Planning Updates
 - We are approaching our goals, but we can always use more. The more we get the more money we can get.
 - Split up contacts in Google Document
 - If green, bought a booth. If yellow, they have been contacted but not signed up. If they are pink, they are only coming as an APPE booth. If you are in contact with a pink booth, please contact them to see if they do indeed want to be there just for APPEs. Blue means a new company that has signed up and

bought a booth without being contacted by a senator (still need a contact person). White is the majority left, which is where the Thursday plans come in. Go in and if you want to contact a certain company to see if they are interested, please do so. We are hoping senate members will contact about 5 companies each. There will be a provided script. At the very least we will update their contact information.

- Calling Companies **Thursday October 9th all day**
 - SAA office, rm 2220V
 - Update contact information as you go on
 - If they do not wish to participate, highlight it red. Make a note if they're interested in the future or not.
- Issues: Some companies wanted to only talk to 4th years and hoped to get the fee waived. We will not do this, they are required to still pay the fee and be there all day.
- *We need a lot of **volunteers** to make the career fair successful. Student orgs are required to have members of their orgs volunteering to receive their money from student senate. **Please fill out the google document** Mike has emailed out. If people sign up, they are required to be there! It is separated by Monday and Tuesday.*
- Code of Conduct Update
 - Sent to Dean of students, they have vetted it and gave it back to us. We have contacted Greek life now as well. In the November meeting we will be discussing it. In the next couple of weeks, it will be sent out so please look through it.
