 1. Everything above. These things exist at the VA, academic medical centers, private sectors, aurora healthcare
- v. Concerns/Changes/Limitations
 1. Funding
 2. Law
 3. Provider Status
 - What does it give us? We can now bill medicare
 - Status that opens the gates to money
 4. Prescription Authority
 5. Obama Care/Affordable Care Act
 - Why is this important?
 - It's going to open the gates to money
 - Deals with quality of care
 - Population health
 - i. Fee model – Obama Care
 - ii. \$\$/# of person you get
- vi. Read articles that Nick will provide for more information (valuable and important)
- vii. Future
 1. More Specialty
 2. More Clinic involvement
 3. Alzheimer's, parkinsons, transplant, immune modulating therapy
 4. All the crazy commercials → future of pharmacy
- viii. How do you get an ambulatory job?
 1. If there's a need, fill the void
 2. Ambulatory care will always be at the healthcare setting
 3. A residency is the answer for all of these!
- ix. What do you think the future of mail order pharmacy is?
 1. Two paths

- It will grow
 - i. Profit for prescription is a lot higher
 - ii. Don't have to pay for the upkeep or warehouse
- Retail might shrink → automation, tech check tech
- Specialty is a mail order, over the phone services

5. *Re-vote if needed*
