

LABORATORY ROTATIONS SCHEDULING FORM

UW-Madison Graduate Program in Pharmaceutical Sciences

After reviewing the short Pharmaceutical Sciences Faculty Research Presentations and meeting with professors, you need to identify three laboratories for “rotations” for the fall semester. Each of these rotations will be ~4 weeks in length. Please complete this form within the first week of the semester (by September 1st, 2023 and upload to your box folder). **If you have not identified three rotation labs by Sept. 1, contact Lara to assist you in this process.** Your first rotation begins officially on September 6th, 2023. The rotations will follow the schedule outlined below with your thesis lab choice being due on December 11th, 2023.

Please let Lara know if you have any questions or issues.

Student's name: LAST

First

Middle

Date student began graduate work (month & year)

Current date

You register for **718-999** to indicate that you have completed these rotations. **Lara Collier, Director of Graduate Studies, will act as the rotations coordinator** and will assign a grade for the semester's lab rotations. Rotations, which are graded cumulatively (i.e., **one grade** for all rotations during the semester), will be graded on a scale of **A, AB, B, C, D, F**.

Rotation	Faculty member's name	Signature (or e-signature) of faculty member	Dates of each rotation
1			September 6th - October 4th, 2023
2			October 5th - November 2nd, 2023
3			November 3rd - December 4th, 2023

Approved by:

Signature (or e-signature) of Lara Collier,
Director of Graduate Studies
