

Search Strategies and Residency Characteristics

Abigail Polley-Griffen and Rebecca Hanus
UW SOP PGY-1 Community Pharmacy
Residents

February 10, 2015

Objectives

- Be able to successfully search for pharmacy residencies
- Understand that each residency offers different characteristics
- Know that prioritizing residency characteristics is important

Search Strategies

- Various avenues to find information
- Starting from the basics
 - ASHP Natmatch
 - Program's websites
 - Additional on-line directories
 - American College of Clinical Pharmacy
 - <http://www.accp.com/resandfel/>
 - American Pharmacist Association
 - <http://www.pharmacist.com/residency>

Search Strategies

- Google search: ASHP Natmatch

ASHP Resident Matching Program

for Positions Beginning in 2015

About the Match | For Applicants | For Programs

ASHP Resident Matching Program

Welcome

The ASHP Resident Matching Program (the "Match") places applicants into pharmacy residency training positions in the United States. The Match includes both Postgraduate Year One (PGY1) and Postgraduate Year Two (PGY2) pharmacy residencies.

The Match is sponsored and supervised by the [American Society of Health-System Pharmacists \(ASHP\)](#). The Match is administered on behalf of the ASHP by [National Matching Services Inc.](#)

Web Site Navigation

This web site is structured into three sections, each of them accessible by a link at the top of the page:

- About the Match:** Provides general information on the Match relevant to all participants
- For Applicants:** Provides specific information on the Match for applicants, and should be used for registration, submitting rankings and viewing results
- For Programs:** Provides specific information on the Match for programs, and should be used for submitting rankings and viewing results

Navigation menu items: Overview of ASHP Match, Eligibility Requirements, Participation Agreements, ASHP Match Rules, Schedule of Dates, Early Commitment Process, The Matching Algorithm, **View Participating Programs**, Match Statistics, Search

List of Participating Programs

This List of Participating Programs shows the pharmacy residency programs that are participating in the ASHP Resident Matching Program (the "Match") for residency positions beginning in 2015. This List is updated regularly, whenever information about programs participating in the Match changes. Applicants are encouraged to consult this List for the most current information on program offerings and Code Numbers prior to finalizing their Rank Order Lists for the Match.

Programs That Start Training in PGY1
Select Program Type

Programs That Start Training in PGY2
Select Program Type

Programs are selected for display by program type. Within each program type, programs are listed alphabetically by state and city within state, and then alphabetically by organization name within city. Select the desired program type from the drop-down lists below, then click on the SUBMIT button to display the programs of that type that are participating in the Match.

For each residency program included in this List, a link is provided to display more detailed information from the ASHP Online Residency Directory for the program.

Community Pharmacy Residency Program - Overview

The University of Wisconsin Community Pharmacy Residency Program (UWCPRP) offers innovative practice experiences through a variety of community practice sites as well as unique opportunities for teaching and research with faculty members at the University of Wisconsin - Madison School of Pharmacy.

Goals of the UWCPRP

To develop within the resident, the following:

1. Clinical competence in the field of community clinical practice.
2. Competence in clinical practice program development and practice management.
3. Competence in educating health care providers and patients on medications.
4. Professional leadership through community and professional involvement and scholarly activities.
5. Competence in self-evaluation and self-directed learning.

Practice Sites

The Community Pharmacy Residency program features a variety of innovative community pharmacy practice sites. For the current program year, seven resident positions are available in the cities shown below. Detailed descriptions of these sites can be found further down on this page. The University of Wisconsin-Madison School of Pharmacy is the administrative hub of the Program.

Our program is accredited by ASHP and each site has its own unique National Matching Program Code Number.

1. Dean Clinic Pharmacy - East

Preceptors:

Kristina (Tina) Lislowe, PharmD, RPh

Jamie Statz-Paynter, RPh

National Matching Program Code: #155924

2. Dean Clinic Pharmacy - West

Preceptor:

Keila Schutten, Pharm. D

National Matching Program Code: #155925

3. Dean Clinic Pharmacy - Janesville

Preceptor:

Kristin Lynn Peterson, RPh

National Matching Program Code: #155926

Dean Clinic Pharmacies are part of the Dean Health System and consist of seven pharmacies located in Southern Wisconsin. The Dean Clinic Pharmacies are clinic pharmacies with close working relationships with providers and utilize collaborative practices with internal medicine, family medicine, and urgent care providers. Pharmacists have access to the patient's electronic medical record to review labs, medication lists and progress notes. Dean pharmacists are trained to provide immunizations. The clinics also have pharmacists providing support and patient care in anticoagulation, oncology, infusion/infectious disease and drug information. Our focus is to provide patient centered care and excellent customer service. Dean Clinic Pharmacies are involved in medication therapy management programs including participation in the Wisconsin Pharmacy Quality Collaborative. In addition to the pharmacies and clinics, Dean Health Systems includes a health plan, a pharmacy benefit manager, and a research foundation. Dean Clinic and St. Mary's Hospital (as a newly formed Accountable Care Organization) was accepted in the Shared Savings program developed by Centers for Medicare and Medicaid (CMS). ACO's are a relatively new model of payment and care from CMS, but is also the model of care Dean Clinics has delivered for many years, focusing on coordinating care, quality metrics, and reducing the total cost of care. The pharmacy department is working to become an integral part of this care model.

Dean Clinic and St. Mary's Hospital, as a newly formed Accountable Care Organization, was recently accepted into the Shared Savings Program developed by the Centers for Medicare and Medicaid (CMS). ACO's are a relatively new model of payment and care from CMS, but is also the model of care that Dean Clinic and Dean Clinic Pharmacy have been delivering for many years, focusing on coordinating care, quality metrics and reducing the total cost of Care.

Residency Characteristics

- Type of practice
 - Community, ambulatory, inpatient, administration
- Types of rotations
 - Blocks vs longitudinal
 - ICU, epilepsy clinic, anticoagulation, oncology
- Location
- Large vs small
 - Health care organization
 - Residency program
- Teaching and precepting opportunities

Residency Characteristics

- Current residents
 - Are they happy?
- Research opportunities
- Ability for PGY-2
 - Transplant, infectious disease, drug information
- Salary
- Funding/reimbursement
- Travel requirements
 - Meetings
 - Different sites throughout the week

Residency Characteristics

- Information overload
 - Important to prioritize characteristics that are important to you
 - Don't be afraid to listen to your “gut”

Prioritize The Characteristics

Rebecca

- Community
 - Ambulatory aspect
- Location
 - Madison
- Teaching certificate
- Co-residents

Abby

- Community/Am Care
 - Development of services
 - Ambulatory aspect
- Location
 - Midwest/Great Lakes
- Pharmacy Practice
- Teaching Certificate
- Co-residents
- Work/Life Management

Example of Prioritizing

Program	Residency Type	Location	Teaching Certificate	Co-residents	Interests	Concerns
UWSOP	Community (Am care opportunity)	Madison	Yes	4	HTN clinic, outpatient, new services	Limited am care?
Froedtert	Ambulatory	Mke	Yes	2	Multiple am care clinics	Rigid
St. Luke's	Community (Am care opportunity)	Mke	No	0 (but interact w/14 inpt res)	Primary Care, outpatient	Limited am care? Did many rotations here
UW Madison Hospital and Clinics	Community (Am care opportunity)	Madison	Yes	1	Multiple amb care clinics	Driving

Tips

- Research as many different programs as possible
- Compare and contrast different characteristics
- Attend residency showcases, career fairs, etc
- Reach out to someone you know who has gone through the program
 - Or consider shadowing for a few hours

Bottom Line

Be sure you chose something that aligns with *your* interests and career ambitions
